**RURAL MANAGEMENT & DEVELOPMENT DEPARTMENT
GOVERNMENT OF SIKKIM
GANGTOK**

Ref No: 84/RM&DD/M

Dated: 4th July, 2012

To,

The District Collector (East)

–cum- Head of District level committee of REDRH Project

Government of Sikkim, East Sikkim, Gangtok

Subject: REDRH Review meeting: Clarifications regarding

Sir,

Kindly find placed below the clarifications on the issues raised during the review meeting held in East District on 23/06/2012:

- Transportation of stock material from the Block Level Store (BLS) to the beneficiary's house has to be arranged for by the Block. The cost is to be borne from the provision of carriage of stock materials provided for in the estimate. Also, the beneficiary can be motivated to support this transportation of stock material to the extent possible. Especially, since the estimate is based on a standard unit cost and does not take into account extensive transportation costs. Other than this, the unloading, stacking in the BLS and loading has to be also arranged for by the Block.
- Establishment of GPK stores may entail difficulties in finding suitable manpower to function as the store keeper and for record keeping. This may in turn result in inadequate management of the stock material. Hence, GPK stores (stores established within the GPK

building) are permissible only in rare and unavoidable cases with prior approval of the District Collector provided no expenses in terms of rent, hiring additional manpower etc are incurred. Also, provided all the procedural safeguards as indicated in the “Guidelines for the Management of Stock Materials” dated 30th June, 2012 are adhered to without fail.

- The two GPUs namely Navey Shotak GPU and Lingdong Nampung GPU under Kabi BAC would be taken care by North District for the purpose of this project. This change has already been reflected in the online website of REDRH.
- Cabinet decision on exemption of taxes, duty, commission, cess and royalty is enclosed.

Yours faithfully,

Special Secretary
